What is _____ **Masters' Union?**

Hon'ble Vice President of India, Shri Jagdeep Dhankar at the 4th Convocation of Masters' Union

Where Business & Products Aren't Just Studied —*They're Built*

Founded in 2020, Masters' Union was envisioned as a **modern business & engineering school that stands for “Learn By Doing”**, bridging the gap between traditional education and the dynamic needs of the industry.

Students build businesses to learn business and develop tech to master tech. Grades are based on real products, revenue, profits, and NPS—not just exams.

Unlike conventional institutions, Masters' Union is **led by industry practitioners**—CEOs, founders, technocrats and business leaders—who design and teach its innovative, hands-on curriculum.

In just four years, it has grown from a single batch of 60 students to a thriving institution with over 2,500 students, producing groundbreaking startups, winning national case competitions, and setting new benchmarks in placements.

To iterate an education model that maximises human potential

The age-old education model is built on memorisation, conformity & indoctrination. We want to build a model that's **hands-on**, rooted in reality & has a **high degree of throughput**. One that can truly help students shift orbits!

Masters' Union CEO Challenge 2024 judges Sarthak Ahuja, Ankur Warikoo & Shlok Srivastava

Our Mission

at Masters' Union

To become one of the **top ten Business schools** globally in next five years

How will we achieve our mission? —

- 1 By **not being a prisoner of our own legacy** & continuously iterating on curriculum
- 2 By **teaching as if a student is not a vessel that needs filling**, but a candle that needs lighting
- 3 By always thinking big, **striving to paint outside the lines** while always being student centric

Why We Chose ——— **DLF Cyberpark as Our Campus**

Masters' Union's Campus Lobby in Tower A

At Cyberpark, we are surrounded by almost 85% of Fortune 500 companies within a 2 km radius.

- 1 In front of us lies **CyberHub**, home to the offices of leading multinational **corporations**, while behind us is **Udyog Vihar**, where some of India's most prominent conglomerates operate their factories.
- 2 The dynamic ecosystem of our campus perfectly aligns with our mission to immerse students in real-world business environments. It's not just a campus - it's a gateway to opportunities, collaboration, and success.

How We Teach? —

A Unique InClass-OutClass System

Transform '**InClass**' theory into immediate '**OutClass**' practice.

InClass is where the magic begins, with interactive, hands-on sessions led by industry experts and seasoned academicians who bring real-world experiences into the classroom.

With **OutClass**, students apply what they learn inside the class and dive into live projects with top companies, collaborate with startups, and even launch their own ventures!
